

Hatice Ipek Tohumcu – The designer showcased a harder edge collection for women with snakeskin print trench coats, elegant embellished evening dresses and tapered black pants. This collection was full of bright cherry reds, whites, canary yellows, tans, muted greens and darker maroons accented with gold. For details we saw big silver zippers, large buttons, and thick coloured belts to give focus to the waist. As well asymmetrical collars and fur necklines added to the modern edgy look of the collection.
